Thank you, Donn, for the site specific (ZQ) list and the Texas All (TA) list. Per our discussion this morning, I understand that you want to use the site specific (ZQ) list, without the Channelview addresses, for the revised fact sheet mailing, and that the Texas All (TA) list is not to be used for this mailing. Please let me know if that is not correct.

Ok, this should be the ZQ or site specific list for a target approach. This was forwarded from our other contractor. Thanks.
